

# Approaches

School Communities are encouraged to continue fundraising to replace structures with the preferred approach. (Conventional Structure, Naturalized Play, Ground Play or Landscape Elements). The Average costs for some of these approaches based on the existing site size and scope requirements are as follows as a guide:

|           | Approach & Average Cost |                          |  |                    |
|-----------|-------------------------|--------------------------|--|--------------------|
| Approach  | Conventional Structure  | Naturalized Play         | Ground Play                                      | Landscape Elements |
| Timelines | 30 Weeks                | 40 Weeks                 | 36 Weeks   | 16 Weeks           |
| Function  | Plastic Metal Climber   | with climbing activities | pathways, Playhouses with NO climbing activities | Trees and Boulders |
| Avg. Cost | \$ 68,000.00            | \$160,000.00             | \$ 40,000.00                                     | \$ 15,000.00       |

# Completed Projects

|                            |   |
|----------------------------|---|
| <b>Project:</b>            | Small compact Kindergarten structure.<br>Jockvale Elementary School                                       |
| <b>Yard Enhancements:</b>  | Regrading tiers steps on berm   |
| <b>Accessibility:</b>      | Mulch surfacing and transfer station  |
| <b>Year Installed:</b>     | 2014  |
| <b>Playstructure Area:</b> | 1363 sq. ft.  |
| <b>Costs:</b>              | Site Preparation - \$ 30,500.00<br>Equipment - \$16,700.00<br><br>Total - \$ 47,200.00 (net \$ 43,000.00) |
